SAVOIR BED

THE WORLD'S FINEST BED FOR THE WORLD'S MOST LUXURIOUS SHIP

Savoir Beds were first created for The Savoy Hotel in 1905, where for over 100 years luminaries as diverse as Sir Winston Churchill, Giacomo Puccini and Marilyn Monroe have experienced the cloud-like comfort they provide. Hand-made in the UK, the finest natural materials and skilled craftsmanship combine to create the ultimate sleeping system.

The Regent Suite features the **Savoir No. 1**, the same version found in the Royal Suite of The Savoy Hotel. With more than 80 hours of a master craftsman's time on the upholstery floor, combined with the detailed work put in by the cutter, seamstress and joiner, the total time invested is over 120 hours. The mattress — topped with a panel of high-tech stretch cotton fabric — is filled with extra-deep, high-turn pocket springs, masses of loose, curled horse-tail hair and double layers of carded lambs' wool. Its frame of hardwood beech has several unique features, such as dovetail joints and a flexible, hand-tied cane edge.

Combining perfectly balanced support with ultimate comfort — this bed is certainly for those who appreciate the very best things in life.

Along with your exclusive king-size Savoir Bed, you will also enjoy ...

A heavenly, 100% down **Mollissima Duvet**, crafted with Icelandic new eiderdown.

A set of **Double Touch Of Down™ Bed Pillows** with double the amount of soft, luxurious down on the outside and resilient, small whole feathers on the inside for a more comfortable touch. The feathers are Hyperclean® Down, free of dust, dirt and allergens and are encased with Barrier Weave™ fabrics and special finishing to keep the feathers in place.
